SUMMARY

Aspiring Python Developer with practical experience in Python, basic backend concepts, and web technologies like HTML and CSS. Familiar with fundamental database concepts using MySQL and Django, and eager to learn, improve skills, and work on real-world applications. Interested in contributing to team projects while building strong problem-solving and coding skills.

EDUCATION

B.Tech – Information Technology	2021 – 2025
<i>Vivekanandha College of Engineering for Women, Namakkal</i>	<i>CGPA: 7.6 / 10</i>
Higher Secondary Certificate (HSC)	2020 – 2021
<i>Munirajah Matriculation Higher Secondary School, Namakkal</i>	<i>Percentage: 88%</i>
Secondary School Leaving Certificate (SSLC)	2018 – 2019
<i>The AVS Matriculation School, Namakkal</i>	<i>Percentage: 84%</i>

SKILLS

Programming and Web Technologies: Python , HTML, CSS

Framework and Databases: Django , SQL (MySQL)

Tools and Platforms: Figma , GitHub, Power BI, VS Code

PROJECTS

Smart Learning Pathways HTML, CSS, JS, Flask, MySQL	Mar 2025
– Developed a web-based learning platform to help students track courses, attendance, and progress effectively.	
– Built the Frontend using HTML, CSS, and JavaScript to create interactive and user-friendly pages.	
– Implemented backend logic with Flask and connected to MySQL database for storing and managing student data efficiently.	
DevSearch (Developers Portal) Python, Django	Dec 2025
– Built a Django-based web application that allows developers to create profiles and showcase their projects with external links.	
– Implemented user authentication, form validation, and search functionality to improve user interaction and accessibility.	
– Focused on clean backend logic and secure data handling to ensure smooth and reliable application performance.	

INTERNSHIP

Technohacks Edu Tech	Mar 2024
<i>Web Development Intern</i>	<i>On-Site</i>
– Built mini web projects like Calculator, Currency Converter, and Login/Sign-up pages to practice core web development skills.	
– Applied HTML, CSS, and basic integration techniques to complete practical projects.	
Accent Techno Soft	June 2024
<i>Full Stack Web Development Intern</i>	<i>Off-Site</i>
– Gained hands-on knowledge of Full Stack Web Development concepts including HTML, CSS, and Flask.	
– Worked on learning integration concepts and basic web development workflows.	
Zidio Development	Jan 2025 – Mar 2025
<i>UI/UX Design Intern</i>	<i>Remote</i>
– Designed key web pages using Figma, focusing on layout structure and user-friendly interfaces.	
– Gained understanding of basic UI/UX principles to support frontend web development.	

CERTIFICATIONS

- Python Developer Program – Tamil Nadu Skill Development Corporation (2026): Hands-on training in Python programming, problem-solving, and basic backend development.
- Completed UI/UX Design Internship at Zidio Development (Remote, Jan–Mar 2025).
- Completed Full Stack Web Development Internship at Accent Techno Hacks (On-site, 15-Day Program, June 2024).
